**MURRAY & ROBERTS AWARDED R4,0 BILLION IN NEW PROJECTS**

Murray & Roberts is pleased to announce the recent awards of new projects to the value of R4,0 billion. The projects will be delivered over a period of up to two years.

These awards include projects to be undertaken by the Oil & Gas platform in the metals & minerals market in Australasia, as well as the development of a copper mine in Mongolia, which will be undertaken in joint-venture between the Oil & Gas and Underground Mining platforms.

In the context of a constrained oil and gas market over the past four years, emphasis has been placed on complementary growth markets such as Australasia’s metals & minerals and infrastructure sectors, previously well serviced by the Oil & Gas platform. These project awards are a demonstration of the platform’s ability to secure project opportunities in complementary markets.
