**CLOUGH AWARDED ENGINEERING, PROCUREMENT AND CONSTRUCTION SCOPE FOR TALLAWARRA POWER STATION IN NEW SOUTH WALES**

Murray & Roberts is pleased to announce that Clough has been awarded an approximate R1,1 billion contract for the engineering, procurement and construction scope for the Tallawarra B Gas Turbine Power Station. Tallawarra Stage B is a 300MW expansion of the existing Tallawarra A power station, which is located in New South Wales.

The Energy, Resources & Infrastructure platform trades under the Clough brand, a brand associated with providing project service excellence for more than 100 years on large and technically and logistically challenging projects in the energy, resources and infrastructure industries.

The platform has done well by establishing a good market position in the specialist infrastructure and resources growth sectors in Australia, both sectors which are expected to remain buoyant over the next decade.
